

Morrells Instructions for finishes on BA Paintable Doors

BELLA PAINTABLE FOIL HORNSCHUCH F4288001

- Wipe panel surface with Acetone (Morrells code X001B);
- Apply 1 coat Dead Matt 2K Acid Catalyst Adhesion Promoter (Morrells code 696/W07B) catalysed 9:1 by volume with catalyst (Morrells code 5CAT/100A);
- Air-dry at ambient temperature (18-20C) for a minimum of 90 minutes (forced drying can reduce these times significantly);
- Denib with 320 grit denibbing abrasive paper;
- Apply 1 coat Fastmatch 2K Pigmented AC Topcoat (all codes commencing 5/ or 5A/)....available in any colour including RAL, BS, NCS etc. and in sheens ranging from 90% Gloss to 10% Matt.

PRONTO WILTON WOODGRAIN WHITE FOIL RENOLIT ALKORCELL ROUGHOAK GREY 412-088541

- Denib 180 grit and wipe with X001 ACETONE
- 1 Coat 650/w10 2k Adhesion Promoter (Light 320 Denib only if fibre raised)
- Air-dry 90 minutes
- 1 coat Morrells Fastmatch 2K AC Colour

Like all testing we strongly advise that you always test the system prior to starting any coating to ensure they are confident with the adhesion properties of the finish

All the products are available via any of Morrells Sprayshop outlets of which there are 21 around the UK and Ireland. These can be found on the Morrells website / branch finder. www.morrells.co.uk/branches/
